

“Our fire department recycles used rechargeable batteries and cell phones. So should you.”

RBRC
RECHARGEABLE
BATTERY
RECYCLING
CORPORATION

We protect our citizens and we protect our environment. The fire stations in our department recycle the used rechargeable batteries in their mission critical equipment such as two-way radios, cell phones, portable defibrillators and cordless power tools. With RBRC as our partner, recycling is easy and free! RBRC has enrolled over 4,300 public agencies and recycled millions of pounds of rechargeable batteries and cell phones since 1996. Get started today at www.call2recycle.org or call toll free 1-877-723-1297. **RBRC. Responsible Recycling.**

Anthony Peluso
Lieutenant of Fire Station #79
Montreal, Quebec
